

Research Study

**Parent-
Assisted
Remote
Assessment of
Dermatitis**

Volunteers needed to help
detect eczema early via Apple
iOS phone app

Learn how you and your child may
be eligible to participate in a free
research study being conducted
in Oregon primary care clinics.

PARADE

Research Study

Looking for volunteers

WHO: Children ages 0-2 years and one parent or legal guardian with an Apple iOS phone.

WHAT: The purpose of this study is to find out if it is possible to detect eczema remotely via an Apple iOS mobile phone application (without in-person exam).

No clinic visits necessary. All study contact will take place electronically through email, text message, the SkinTracker app, or virtual visits.

Compensation: Eligible participants will be compensated up to \$80 over one year of study participation.
